

Lake Aurora's investment in The Sunshine Project

Removing the barriers to great experiences

James & John Cabin

\$250,000

A duplex Hillside cabin housing the health clinic and the administrative center, with apartments for the nurse and the program director. Initially constructed without some interior walls to provide a temporary meeting space for 100 campers for the Hillside programs.

Ministry Value:

This will free an additional 20 beds to the Hillside campus and allow the chapel services and other programs to be moved from the dining hall to better facilities. This will increase programming space for churches by 15-20%.

Valencia Leadership Lodge

\$300,000

A lodge consisting of housing units suitable for adults as well as youth, with an adjoining meeting space.

Ministry Value:

Provide space for the Alpha and Omega leadership program in the summer and leadership retreat space for churches throughout the year.

Cypress Lodge

\$250,000

A Lakeside meeting building for 100 people overlooking the lake, with adjoining public restrooms.

Ministry Value:

Provide the Lakeside Campus with a second meeting space which will greatly enhance the summer camp program and provide significant space to churches for retreat programming. This will increase our programming space for churches by 15-20%.

Aurora Adventure Lagoon

\$1,500,000

A barrier free aquatic facility consisting of a lagoon, a splash zone, and a lazy river. It will provide transgenerational aquatic opportunities to the Hillside Campus and alternate opportunities to the lake.

Ministry Value:

Will remove the barriers to great experiences for those with disabilities, from birth issues to strokes, and allow them to enjoy the sunshine of God's love as expressed here at Lake Aurora.

Lakeside Campus Retrofit

\$200,000

Improving the 62 year old Lakeside Campus by adding restrooms to the meeting spaces, improving the environmental impact of the water and sewage systems, and fully removing the barriers to great experiences for those with disabilities.

Ministry Value:

"For God so loved the world" is fully expressed by the church when it includes all persons, regardless of abilities, into its care and ministry. Lake Aurora has long had a commitment to do its best, but now its best can benefit even more families.
